## **DETAILED ACTION**

### ***Response to Amendment***

1. In response to the Amendment received on June 10, 2009, the examiner has carefully considered the amendments. The examiner acknowledges the cancellation of claims 1-20 and the addition of new claims 21-31.

### ***Response to Arguments***

2. Applicant's arguments, see Remarks/Amendment, filed June 10, 2009, with respect to claims 21-31 have been fully considered and are persuasive. The rejection of claim 1-6, 9-11 and 14-17 under the grounds of nonstatutory obviousness-type double patenting over claims 1-2, 5 and 7-24 US Patent No. 7,081,486 of has been withdrawn. The amended claims as instantly written no longer comprise the overlapping subject matter. The claims of 7,081,486 do not require the organo-metal complex. The rejection of claims 1-6, 9-11 and 14-17 under 35 USC 102(e) as being unpatentable over Imai et al (7,081,486) has been withdrawn. Imai et al (7,081,486) does not set forth functionalizing the obtained polymer with an organometallic complex. The rejection of claims 1-8, 14-15, and 18-19 under 35 USC 102(a) as being unpatentable over Imai et al (7,416,707) is withdrawn. Imai et al (7,416,707) while teaching a polymer obtained by a similar method fails to set forth polymerizing in the presence of a additive comprising an organometallic complex for functionalizing the obtained polymer.

## **EXAMINER'S AMENDMENT**

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided

by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 27, lines 1-2 please delete the subject matter "contains at least one additive component comprising" and replace in its stead the following "has been functionalized by".

In claim 30, line 1 please delete the word "contains" and replace with "comprising".

Please note this examiner's amendment has been made to better place the claimed in condition for allowance by removing the indefiniteness of the claim.

***Allowable Subject Matter***

4. Claims 21-31 are allowed.
5. The following is an examiner's statement of reasons for allowance: The prior art fails to teach, alone or in combination, a process for producing a polymer which comprising photo-polymerizing at least one photopolymerizable precursor having at least two or more unsaturated bonds by irradiation in a supercritical or subcritical fluid in the presence of at least one additive which comprises at least one organometallic complex for adding polymer function to produce a polymer having juts comprising said additive component. Nor does the prior art set for a polymer comprising juts that has been functionalized by at least one organometallic complex. .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***
